SCREAM OF SPRING

Verse 1

And now you hear
Now you see
The scream of spring
Torn in two
Black boxes and missing people
Wander around
In search of a steeple

Verse 2

Who'll break our fall
Who'll cleans us
Who'll rescue us

Chorus

The morning star
Will break our fall
The morning star
He'll break our fall

HEAVY SMILE

Verse 1

And I'll wait to escape with you
To shipwreck on your dreams
And on these tides we'll ride over all
My heart pounds to hear your voice

Chorus

Heavy smile
Heavy smile, all around
Heavy smile, shone around

Verse 2

Just watching as the winter breaks
To say i love you

End

Heavy smile
Heavy smile

MILD WINTER

Verse 1

I see the universe in your tears
Can we just whisper while we wait?

Verse 2

A night on earth
You're so beautiful it makes me cry

Chorus

Because I know it's only over
Because I know it's only over
Because I know it's only over
From where we stand
Because I know it's only over
Because I know it's only over

End

(this) mild winter is finally through
I'll hold your hand if you want me to (only for while)

WINGS FOR THE BROKEN

Verse 1

Wings for the broken
Wings for the choking
I know I need to get away
But the wings I have, have began to fray

Verse 2

Wings he made
Are
Wings that save
Wings he made
Will
Take me above all else
And when I'm looking down
I'll see nothing at all
But you

Chorus

Higher, higher
Higher, higher

Verse 3

Days of fire show you're a liar
But so am I, we just keep on falling down
Days of fire show our desire
To be somewhere else
To be free somewhere else

Chorus/Outro
Higher, higher
Higher, higher
Higher, higher
Higher, higher
