### **Sumersault**

#### *Verse One*

I woke up from the strangest dream  
There we were, together forever  
It had been that way forever and ever  
But now I'm here, and its never oh never

#### *Chorus*

Been that way  
Been that way

#### *Verse Two*

So I'll stay asleep, because there we can meet  
And hold your hand, no time for plans  
Bright blue skies hide this lie  
In my dreams there's no other, no other

#### *Chorus*

But You  
But You  
But You  
But You

### **Butterfly**

#### *Verse One*

So I'll sing to you all night  
I'll never ever stop, until your mine  
Hey! What did I expect?  
I guess I wanted something more  
Than this could give

#### *Verse Two*

So I'll sing to you all night  
I'll break your fall down, and soften the blow  
Now, your voice drowns out these waves  
And never ever stops calling me back

#### *Verse Three*

So I'll sing to you all night  
And never ever stop until your mine

#### *Chorus*

I'll always be there  
I'll always be there  
I'll always be there  
I'll always be there

### **Adore**

#### *Verse One*

Sing me a song to be so far away  
Hold me now forever, sing us away

#### *Verse Two*

And you look, you see me there, with two torn wings  
And you run, so away, oh don't go  
You crawl as your to move, and speak nothing at all  
Why don't I expect anything more than this

#### *Chorus*

And the night you hear  
And the stones they throw  
And the waves we see  
They mean nothing at all  
They mean nothing at all

### **Someday Nowhere**

#### *Verse One*

Just another heart, just another mess  
A pretty girl in a summer dress  
Just another heart, just another mess  
Say no more now let it rest

#### *Chorus*

You had me at first glance  
I felt our hearts were made to dance

#### *Verse Two*

What's a few more years what's a few more tears  
It's been this long but I'll still hold on  
For when the days are warm and the confusions gone  
Sing it loud and shout what's best

#### *Chorus*

You had me at first glance  
I felt our hearts were made to dance  
You had me at first glance  
It felt like our hearts were made to dance

#### *Verse Three*

Say no more now let it rest  
Just another heart just another mess  
For the pretty girl in a summer dress  
See her twirl she's just the best
